

Cristian Andrés Peña Villar

Game Development and Virtual Reality Engineer

Software Developer & Higher Education Lecturer — Universidad de Talca

Villa Alegre, Chile · [linkedin.com/in/cristian-pena-villar](https://www.linkedin.com/in/cristian-pena-villar) · +56 9 6868 7066 · cristian.penavillar@gmail.com

Professional Summary

Engineer with a solid foundation in Computer Science, Design, and Basic Sciences. I combine practical experience as a developer using engines like Unity, Unreal Engine, and Godot with higher education teaching across the complete programming track (I to IV). This dual trajectory allows me to contribute both in the technical execution of software projects and in mentoring future developers. I hold certified continuous training in web development, programming, and hardware, alongside leadership skills for academic and project initiatives.

Work Experience

Centro de Formación Técnica San Agustín

Higher Education Lecturer

Linares, Chile

March 2026 – Present

- Lead lecturer for the Programming track (I to IV), guiding student progression from core algorithmic logic to object-oriented programming (OOP).
- Hands-on instruction in software architecture, UML modeling, and game engine development using Unity (C#), Unreal Engine (Blueprints), and Godot.
- Academic planning, resource optimization, and competency-based assessment aligned with the Institutional Educational Model.

Gamalityx Studios

Lead Game Programmer

Santiago, Chile

July 2024 – October 2024

- Developed an Endless Runner game as lead programmer using Unity (C#) and various engine tools.
- Collaborated in a multidisciplinary team and contributed to the Game Design Document (GDD).

Germani

Sales Associate

Linares, Chile

June 2025 – July 2025

- Provided personalized customer service, achieving sales goals through teamwork and store organization.

BCS Studios

Software Developer Intern

La Serena, Chile

January 2023 – February 2023

- Developed a tactical RPG prototype using Unity (C#), focusing on gameplay mechanics and combat systems.

Colegio Artístico del Maule

Workshop Instructor

Talca, Chile

September 2022 – November 2022

- Organized and taught an educational game development workshop using Scratch for elementary school students, fostering teamwork and programming logic.

Universidad de Talca, Faculty of Dentistry

Software Developer Intern

Talca, Chile

January 2021 – February 2021

- Developed a Serious Game prototype for dental simulation under the supervision of Dr. Francisco Franzani.

Juan Maestro / Tarragona

Crew Member — Cashier & Kitchen (Seasonal Job)

Linares, Chile

2017 – 2020

- Customer service, teamwork, and operational tasks during summer seasons; recognized as Employee of the Month (Tarragona).

Education

Universidad de Talca

B.S. in Game Development and Virtual Reality Engineering

Talca, Chile

March 2019 – April 2024

Certifications

Bootstrap: Responsive Web Design — Mastermind	February 2025
Frontend Development with HTML, CSS, and JS — Mastermind	February 2025
Web Development with HTML and CSS — Mastermind	January 2025
Python Programming Fundamentals — Mastermind	December 2024
Arduino Fundamentals: Theory and Practice — Mastermind	August 2023

Skills & Interests

Programming Languages: C#, C++, C, Python, Java, HTML, CSS, JavaScript, Dart, MySQL.

Development Tools: Unity, Unreal Engine, Godot, MongoDB, Linux, Bootstrap, React, Figma, Excel.

Teaching & Academia: Academic planning, instructional design, competency-based assessment.

Version Control: GitHub.

Languages: English (B1 Intermediate), Spanish (Native).

Soft Skills: Adaptability and fast learning; teamwork under pressure; leadership and mentorship.
